## VIII. EMERGENCY AND FIRST AID PROCEDURES

### First Aid:

If eye contact occurs, flush with large amounts of water for 15 minutes, lifting upper and lower lids occasionally. Get medical attention if irritation persists.  
If skin contact is made, thoroughly wash the exposed area with soap and water.  
If swallowed, immediately drink two glasses of water and induce vomiting by either giving ipecac syrup or by placing finger at back of throat. Never give anything by mouth to an unconscious person. Get medical attention immediately.

### Spill:

If inhaled, remove from further exposure.  
Small spills can be flushed with water and directed to drain. Large spills should be contained, absorbed with an inert material, and collected into an approved container.

### Special Fire Fighting Procedures:

None

## IX. PREVENTATIVE MEASURES

### Procedures for Material Release or Spill:

Small spills can be flushed with water and directed to drain. Large spills should be contained, absorbed with an inert material, and collected into an approved container.

### Work and Hygienic Practices:

Never eat or smoke while working with chemicals. Good housekeeping practices apply. Wash thoroughly after handling. Avoid prolonged contact with skin or eyes. Avoid breathing spray or mist.

### Handling and Storage:

Store in original container, in cool, dry place with adequate ventilation. Keep out of reach of children. Keep container tightly closed when not in use.

### Ventilation Requirements:

General mechanical ventilation

### Other Procedures:

Dispose of material in accordance with federal, state, and local regulations.
